| | |
|---|---|
| **Programming Languages:** | C, C++ |
| **Frontend:** | HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Material-UI, React.js TypeScript, Angular , Basic React Native |
| **Backend:** | Node.js, Express.js |
| **Database:** | SQL,Postgresql, Mongodb |
| **Tools and Platforms :** | VS Code, Git, GitHub ,Postman,AWS (EC2, S3, Deployment) |

## EXPERIENCE

**Front-end Developer Internship**                                                                                                     Jan 2024 – Jun 2024
Numetry Technologies
- Developed responsive web interfaces using HTML, CSS, JavaScript, React, and Angular.
- Integrated third-party libraries to enhance UI functionality, reducing development time by 15%.
- Developed front-end features with React.js to improve performance and scalability.

**MERN Stack Certification**                                                                                                             Jul 2024 – Mar 2025
Fullstack Guru
- Built multiple full-stack applications using React.js, Node.js, Express.js, and MongoDB.
- Gained hands-on experience in full-stack development, including REST API integration, user authentication, and state management.

**Full Stack Developer**                                                                                                                   Apr 2025 – Present
Sazinga digital services private limited
- Worked on live projects such as Aries Agro, Project Management System, and Goicar.
- Contributed to frontend development using Angular and mobile app development with React Native.
- Implemented backend services using Node.js with PostgreSQL as the database.
- Collaborated with the team to design and integrate features for project tracking, reporting, and task management.

## PROJECTS

**QR-Based Child Protection Management System**
- Designed a centralized website to manage children's records, guardians, and alert logs.
- Generated unique, tamper-proof QR codes for each child with secure backend mapping.
- Implemented real-time location sharing alerts (SMS/WhatsApp) using APIs like Twilio for emergencies.
- Added features such as child profile, parent contact details, and emergency alert trigger on QR scan.
Technologies: React.js, Node.js, Tailwind CSS, Express.js, PostgreSQL, Twilio API

## EXTRA-CURRICULAR ACTIVITIES/CERTIFICATES

- Completed Zensar training with hands-on experience in SQL, Java, and Aptitude fundamentals.

- Udemy Certification: Certification in C++ programming and Object-Oriented Programming (OOP) concepts.
